ORACLE CLOUD OPTIMIZATION SERVICES

Sierra-Cedar's robust and tailored Optimization Program is designed to help you realize more value from Oracle Cloud Applications. Here is a sampling of outcomes and testimonials from clients who have benefited from this service.

Maximizing Your Cloud Investment

- Continuous Improvement via New Features in Oracle Quarterly Updates
- Automate Invoice Process using Oracle IDR
- Simplify Procurement Process with Supplier Punchout Catalogs

"Sierra-Cedar's knowledge of our ERP and EPM applications has allowed us to minimize support risks from both technical and functional standpoints. Knowing that we have the Sierra-Cedar team available provides my team with access to experienced support personnel."

Leading Healthcare Organization

Improving Your Processes

- Simplified Year-End Processing
- Streamlined Benefits Open Enrollment Process
- Payroll Process Optimization

"The system is allowing us to streamline critical payroll procedures and operations. Sierra-Cedar helped us implement a policy change related to our performance management and payroll areas that eliminated the need to do manual retro calculations each pay period, saving upwards of 10 hours per week."

Long-standing Sierra-Cedar Customer

Optimizing Your Oracle Cloud

- Identify configuration enhancement opportunities
- Mitigate user counts overages via efficient security set up
- Align with industry leading business practices

"The Sierra-Cedar team delivered amazing results on this project! They identified many opportunities to streamline and optimize our procure-to-pay process that have realized results that significantly surpassed our expectations. In addition to their subject matter expertise, the consultants are fun to work with and make the project enjoyable. Overall, I highly recommend Sierra-Cedar."
