

Sierra-Cedar's Solution Center, located in Lakewood, Colorado, streamlines the Workday implementation process. The Solution Center team has deep Workday product expertise and is focused on delivering Workday configurations, technical integrations, reports, and Workday extensions.

**PARTNER**

Our on-site industry-focused business process experts work closely with the client to understand its business and perform Workday knowledge transfer while Solution Center resources work behind the scenes to configure Workday utilizing the latest Workday features and deployment best practices. The blended Sierra-Cedar on-site/Solution Center team communicates frequently and effectively using best-of-breed tools to provide consistent, quality project execution.

Benefits

- **Industry + Workday Expertise.** Clients gain access to a single cohesive team of on-site consultants, with real-world industry expertise, and their counterparts in the Solution Center, with deep Workday product expertise, who have a full understanding of the overall solution and business requirements.
- **Heightened ROI.** Solution Center resources utilize standards, best practices, tools, and techniques to maximize the benefits of Workday's business processes, configurable functionality, and flexible features while reducing overall project risk.
- **Expedited Issue Resolution.** The deep Workday product knowledge is leveraged to find solutions Workday configuration instead of Workday product enhancements, in order to rapidly resolve client specific requirements.
- **Best Value.** A blended on-site/Solution Center delivery model that combines knowledge transfer by the on-site team with the cost savings of the Solution Center.
- **Extension Services.** Extend Workday solutions with additional technologies: Force.com, Boomi, Hadoop, and more.
