

From assessment to implementation to post-production support, Sierra-Cedar is dedicated to delivering high-caliber E-Business Suite solutions to meet your business and organizational needs. What differentiates us is the combination of our highly skilled consultants, our innovative solutions, and our comprehensive set of consulting and managed services tailored to fit the scope of your project and achieve success.

Our clients work with Sierra-Cedar because they seek the size, capacity, reputation, stability, and sophistication which is commonly found in the largest firms, along with the culture, depth of talent, agility, business practices, and pricing which is commonly found in Oracle-focused boutiques. We are the only firm that blends the positive characteristics of the largest firms and the Oracle-focused boutiques. This puts us into a “Category of One.”

Sierra-Cedar has over 30 years of experience delivering ERP solutions for public sector clients. We provide a complete suite of consulting, managed services, and hosting offerings which are tailored to the needs of each client. Our ability to assist clients in all phases of assessment, planning, deployment, implementations, upgrades, and support has established Sierra-Cedar as a leader in the marketplace. Sierra-Cedar employs hundreds of Oracle consultants who are focused on public sector and have an average of 13 years of experience, making ours one of the largest practices in the country, and we have the ability to provide our clients with integrated Oracle solutions across a broad range of specialized offerings.
