

# ORACLE CLOUD OPTIMIZATION SERVICES

Sierra-Cedar's robust and tailored Optimization Program is designed to help you realize more value from Oracle Cloud Applications. Here is a sampling of outcomes and testimonials from clients who have benefited from this service.

## Maximizing Your Cloud Investment

- Continuous Improvement via New Features in Oracle Quarterly Updates
- Automate Invoice Process using Oracle IDR
- Simplify Procurement Process with Supplier Punchout Catalogs

*‘SMART teamed with Sierra-Cedar to implement Oracle Intelligent Document Recognition (IDR) for Payables Invoice Processing. It's excellent! Processing invoices more efficiently and enabling online approvals really saved us while we were understaffed.’*

**Heather McKillop**  
Chief Financial Officer  
Sonoma Marin Area Rail Transit  
(SMART)

## Improving Your Processes

- Simplified Year-End Processing
- Streamlined Benefits Open Enrollment Process
- Payroll Process Optimization

*‘The system is allowing us to streamline critical payroll procedures and operations. Sierra-Cedar helped us implement a policy change related to our performance management and payroll areas that eliminated the need to do manual retro calculations each pay period, saving upwards of 10 hours per week.’*

**Stephen Fuller**  
Enterprise Program Manager  
City of Oklahoma City, OK

## Optimizing Your Oracle Cloud

- Identify configuration enhancement opportunities
- Mitigate user counts overages via efficient security set up
- Align with industry leading business practices

*‘We are far less dependent upon internal IT today. We've been live for about five months and have gone from being about 90% dependent on IT resources to about 15%, and that continues to decline. When all is said and done, we anticipate saving over \$2 million in the total cost of ownership.’*

**Susan Willis**  
Chief Financial Officer  
Wichita Public Schools

Sierra-Cedar is an Oracle Partner with more than 25 years of customer success.

# Reach New Heights with Oracle Cloud Applications

Sierra-Cedar offers a robust and tailored Optimization Program designed to help you realize value from your SaaS applications, including team readiness assessments, configuration enhancement opportunities, and user count management. Our experienced team provides your organization with reports & dashboards, on-going education for your user community with precision learning plans, and the support you need to adopt new features as they become available in Oracle quarterly updates. Our program helps your organization optimize costs, mitigate risk, and position teams and systems for success.

## Onboarding & Assessment

- Review services, processes, and workflows
- Determine level of support needed
- Comprehensive assessment, if necessary

## Functional & Technical Application Support

- Break/Fix and workaround support
- Implement new functions & features
- Tailored end user education & training

## Quarterly Release Update Management

- Assistance managing automated quarterly updates
- Provide custom Release Readiness Report
- Test & troubleshoot quarterly updates

## Project Work

- Develop reports or interfaces
- Implement new modules
- System configuration changes
