Project Summary

Canon U.S.A., Inc. has been using PeopleSoft HR and Payroll for many years. Sierra-Cedar's proven success and track record for providing quality services and experienced consultants has made it the go-to partner for Canon's PeopleSoft consulting and related services since 2003. Our consultants' knowledge-sharing network is also a key factor in why Canon continues to work with Sierra-Cedar.

Challenges

- Small team to support PeopleSoft applications
- Required additional resources and expertise for new implementations/projects
- Needed guidance and expertise for new releases for each upgrade
- Needed strategic analysis and advice as needed for system selections and implementations
- Needed conversions/implementations for mergers/acquisitions

- Integration with ADP eTime
- Upgrade of PeopleSoft HCM from 8.3 to 8.9

In 2011, Sierra-Cedar was engaged to provide functional and technical consulting services to support the migration and conversion of Oce North America's HR System data from ADP into Canon's existing PeopleSoft system. The conversion included over 4,000 employees and went live successfully on January 1, 2012. In 2012, Sierra-Cedar is currently providing the customer with functional and technical consulting services for its PeopleSoft upgrade from 8.9 to 9.1.
