Sierra-Cedar is your expert source to contact for all of your financial budgeting, planning, or forecasting needs. Whether you are seeking qualified consulting advice or simply want to learn more about your upgrade path, we offer the management and process advisory services, training and support, along with our industry leading Hyperion Planning implementation practice to deliver your organization the necessary tools and processes to run a streamlined and efficient finance department.

Oracle Hyperion Planning is a centralized, Excel- and web-based planning, budgeting and forecasting solution that integrates financial and operational planning processes that improves business predictability. Oracle Hyperion Planning provides an in-depth look at business operations and its related impact on financials by tightly integrating financial and operational planning models. With Oracle Hyperion Planning you can meet your immediate financial planning needs while enabling a platform for future crossfunctional expansion and automated process integration.

Sierra-Cedar provides Oracle Hyperion Planning services that benefit your finance departments:

- Improve forecast accuracy and reduce budget cycle times
- Minimize budget maintenance and wasted resources in finance
- Combine financial and operational planning into one system
- Maximize analysis and modeling capabilities
- Align finance with operations – gain mass user acceptance

Sierra-Cedar also offers the following Hyperion Planning Services:

- Hyperion Workforce Planning
- Hyperion Capital Expense Planning
- Oracle Financial Services Balance Sheet Planning
- Migration of Legacy systems to Hyperion Planning
- Hyperion Planning Implementations and Upgrades
- Product Training and Application Support
- Project Planning and Management
