

## Not Sure How to Utilize SOA at Your Organization? We Can Help.

You've heard about the benefits of Service-Oriented Architecture (SOA), but how can it help your organization? Where do you start? What software do you need now and what can wait? Which of your specific business and IT endeavors can benefit from SOA? Sierra-Cedar can help answer these questions while educating your employees about the use of SOA as it relates to your specific business and technology goals. The workshop includes interactive sessions where Sierra-Cedar will guide your team through exercises to identify short-, medium-, and long-term goals that can be achieved with SOA.

## Timeline/Scope

The on-site portion of the workshop is delivered in three consecutive days.
