Sierra-Cedar

Public Sector Oracle Hyperion Practice

With over 400 successful projects for public sector, higher education, and commercial clients, Sierra-Cedar consistently provides enterprise wide performance improvements by linking strategy to plans with financial & operational results tied to goals. At the conclusion of our projects, clients experience: accelerated reporting cycles; improved transparency and compliance; and strengthened internal controls.

From assessment to implementation to post-production support, Sierra-Cedar is dedicated to delivering high-caliber Hyperion solutions to meet your business and organizational needs. What differentiates us is the combination of our highly skilled consultants, our innovative solutions, and our comprehensive set of consulting and managed services tailored to fit the scope of your project and achieve success.

Our clients work with Sierra-Cedar because they seek the size, capacity, reputation, stability, and sophistication which is commonly found in the largest firms, along with the culture, depth of talent, agility, business practices, and pricing which is commonly found in Oracle-focused boutiques. We are the only firm that blends the positive characteristics of the largest firms and the Oracle-focused boutiques. This puts us into a "Category of One."

Sierra-Cedar has over 20 years of experience delivering Hyperion solutions for public sector, higher education, and commercial clients. We provide a complete suite of consulting, managed services, and hosting offerings which are tailored to the needs of each client. Our ability to assist clients in all phases of assessment, planning, deployment, implementations, upgrades, and support has established Sierra-Cedar as a leader in the marketplace. Sierra-Cedar employs over 50 Hyperion & BI specialists and hundreds of Oracle ERP consultants who have an average of 15 years of experience, making ours one of the largest practices in the country, and we have the ability to provide our clients with integrated Oracle solutions across a broad range of specialized offerings.

> *We contracted with Sierra-Cedar to design the Hyperion Public Sector Planning and Budgeting with Human Capital Planning plan type that will meet Douglas County's functional, technical and reporting requirements. Sierra-Cedar did a fantastic job on this project, helping us define the requirements, design the solution, and build the solution for us. The consultants that they brought in were brilliant. They were knowledgeable and had the required Public Sector experience to meet our complex requirements. They went above and beyond to help and patiently address the needs of our users. We are extremely happy with the services provided by Sierra-Cedar, and we plan to work with them again in the future.*
