

### Industry Focus and Expertise

Founded in 1995, Sierra-Cedar offers a comprehensive, integrated portfolio of services, including management consulting, systems integration, and managed services. Together with its Indian affiliate, Sierra-Cedar India Pvt. Ltd, it has close to 1,200 professionals focused on the U.S. market with global delivery capabilities in both the U.S. and India.

Sierra-Cedar has been delivering powerful solutions and leading technologies to their Justice and Public Safety clients in the United States for more than 20 years. Our clients include local, provincial/state, and federal agencies involved in public safety, law enforcement, legal, courts, and corrections.

Sierra-Cedar's [Justice and Public Safety](#) practice has provided innovative information technology solutions to law enforcement and associated agencies across the U.S. Sierra-Cedar's professionals have an appreciation for the technical challenges and operational sensitivities presented by these projects.

### Sierra-Cedar's Electronic DUI System

DUI arrests in many jurisdictions have been trending downward. The current processes for DUI arrests are manually intensive, paper based, and involve excessive processing time. In addition, duplicate data entry and complex, inconsistent routing often occurs. As a result, officers may be less likely to participate in a cumbersome and inefficient process. Incorrect and/or incomplete information jeopardizes prosecution, license suspension, and cost recovery. Often, a lack of a consolidated DUI database to conduct adequate analysis impairs a law enforcement organization's ability to **make data-based decisions** related to behaviors associated with impaired driving.

Sierra-Cedar's electronic DUI (eDUI) solution collects DUI data once into an efficient electronic user interface, records it into a statewide database, and enables an arresting officer to create the necessary reports and transmit them electronically to prosecutors, courts, and other appropriate stakeholders. The eDUI solution **integrates with existing** electronic ticketing and/or crash reporting systems. Sierra-Cedar's eDUI solution enables an officer to process multiple DUI arrests during a shift and/or increase available enforcement time, availability for service, and proactive enforcement activities.

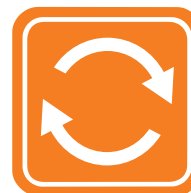

#### eDUI Solution Goals

Improve quality by validating required information

Improve efficiency by eliminating duplicate data entry

Appropriately route information via an automated workflow

Improve decision making through reporting

The core competency of Sierra-Cedar's JPS practice is applying seasoned JPS program and project managers, technical resources, and business analysts to large, complex, multi-agency, multi-jurisdictional JPS projects that require innovative thinking, industry insights, and a high level of integration.

Sierra-Cedar offers established, repeatable JPS solutions in areas such as electronic DUI solutions, officer early intervention, content management, offender management, information sharing, systems integration, e-Filing, court case management and trial scheduling, business intelligence, performance management, and records management integration. Sierra-Cedar provides a robust suite of consulting and managed services offerings that can be tailored to meet the needs of each of our clients. Sierra-Cedar is a recognized leader in JPS System Integration throughout the country.

### Unique JPS Qualifications

In the JPS realm, Sierra-Cedar has decades of experience delivering services based on leading technologies, which help public sector entities increase operational performance through improved processes. Sierra-Cedar provides a complete suite of consulting and managed services offerings that are tailored to the needs of each client. Sierra-Cedar's ability to assist clients in all phases of assessment, planning, development, deployment, and support has established Sierra-Cedar as a recognized leader in JPS system integration throughout the country. Our experience has allowed Sierra-Cedar to develop a 360° view of Justice and Public Safety.
