

What is PeopleSoft Update Manager?

Starting with PeopleSoft 9.2 applications, Oracle has rolled out a new way to manage the improvements and changes for its applications using the new PeopleSoft Update Manager (PUM). With PUM, PeopleSoft bug fixes, patches, enhancements, new functional features, and legislative and regulatory updates are released on a continual basis, at a pre-defined calendar schedule throughout the year.

How is PeopleSoft Update Manager Different?

PUM is a tool that is designed to provide you with a high degree of flexibility to selectively apply new features and implement regulatory updates and patches cost effectively. PUM reduces the need for major upgrades, allowing you to easily manage and maintain your PeopleSoft solution by selecting only updates that are applicable to your 9.2 environment.

PUM is “the tool that breaks up a large upgrade into small, easy-to-apply updates.”

One user describes PUM as “a search tool to find applicable patches.”

Another says, “PUM simplifies maintenance”—and it really does!

The Sierra-Cedar PUM Offering – PUM-as-a-Service

Sierra-Cedar recognizes that clients may be at different stages with the adoption of PUM. Sierra-Cedar, with its years of experience and successes on PeopleSoft projects, is offering a service called PUM-as-a-Service for organizations on or upgrading to PeopleSoft 9.2. To address the varying needs and situations of its clients, Sierra-Cedar has created three tailored packages of PUM-as-a-Service offering:

- **Stay Current** – for organizations that want to stay current with the PUM releases throughout the year
- **Get Current** – for organizations that want to get current once a year
- **Stay Current Life** – for organizations that want to do stay up-to-date with the compliance and regulatory changes and tax updates

Comprehensive
End-to-end services that Analyze, Select, Apply, Test, Promote, and Support PeopleSoft updates with extensive PUM application experience in all industry verticals and pillars.

Why Sierra-Cedar?

- 1000+ PeopleSoft resources
- 1000+ PeopleSoft Projects (75+ PeopleSoft 9.2 projects)
- 23+ years of experience
- Flexible support agreements and delivery models

Flexible
Apply only what is needed once or throughout the year. Our packages are tailored to fit your PUM strategy.

Repeatable
Services delivered with a unique balance of methodology, tools, technology, and talent.

Cost-Effective
Our three flexible delivery models offer a cost-effective approach to meet your budgetary and operational needs.

Contact us for more information on how we can help you with your PUM needs!
