

Sierra-Cedar's week-long workshops provide institutions with valuable information about Fluid, UX, UI, and PeopleSoft upgrade options.

<p>Remote</p> <p>Planning Teams & Roles Scheduling</p>	<p>PREPARE</p> <p>Before coming on-site, Sierra-Cedar begins to learn about your institution's expectations. We work with you to identify the key players who will take part in our week-long workshops, and we build a tailored agenda to fit objectives, schedules, and the project timeline. Our deep dive workshops are flexible.</p> 
<p>DAY 1</p> <p>Kick Off Priorities & Success Criteria Discovery</p>	<p>LEARN</p> <p>Day 1 is dedicated to the Sierra-Cedar team learning about your institution. We want to review your self-service experiences, pain points, and team skillsets with User Experience (UX), Wireframing, PeopleTools Technologies, CSS, and others.</p> 
<p>DAY 2</p> <p>Campus Solutions 9.2 Fluid Functionality Review Fluid UI Foundations Development</p>	<p>EXPLORE & CREATE</p> <p>Day 2 is dedicated to reviewing the Fluid functionality released with Campus Solutions 9.2, and we start building the foundation for your team's understanding of what's delivered and what's possible. We also start hands-on Fluid development activities.</p> 
<p>DAY 3</p> <p>Elastic Search Overview Configure Elastic Class Search Portal PeopleTools Technologies</p>	<p>CONFIGURE</p> <p>Day 3 focuses on an overview of the new Elastic Search. Sierra-Cedar consultants cover use cases with hands-on configuration. We review new Portal PeopleTools technologies such as Activity Guides, Navigation Collections, Related Content, and Event Mapping.</p> 
<p>DAY 4</p> <p>Campus Solutions 9.2 Upgrade Leading Practices Upgrade & Impacts to Application Security Development Wrap Up</p>	<p>UNDERSTAND</p> <p>Day 4 is an opportunity for hands on development activities. Alternatively, Sierra-Cedar consultants can review Campus Solutions 9.2 upgrade topics and leading practices, depending on where you are with your upgrade.</p>
