Sierra-Cedar’s week-long workshops provide institutions with valuable information about Fluid, UX, UI, and PeopleSoft upgrade options.

**Remote**
- Planning
- Teams & Roles
- Scheduling

**PREPARE**
Before coming on-site, Sierra-Cedar begins to learn about your institution’s expectations. We work with you to identify the key players who will take part in our week-long workshops, and we build a tailored agenda to fit objectives, schedules, and the project timeline. Our deep dive workshops are flexible.

**DAY 1**
- Kick Off
- Priorities & Success Criteria
- Demonstrations
- Integration

**LEARN**
Day 1 is dedicated to Sierra-Cedar consultants immersing ourselves into your world. We conduct exploratory activities and research to better understand your environment and needs—from both functional and technical perspectives. We learn about your current systems and listen to your ideal success story.

**DAY 2**
- UX Overview
- What’s Possible?
- Branding & Design
- User Communities
- Accessibility
- IA & User Flows

**EXPLORE**
Day 2 is comparable to a functional fit/gap with a unique spin. Sierra-Cedar consultants will work with your team to explore UX leading practices and to review what’s been implemented in the past. We will identify core users’ specific needs to get a better idea of how to create an effective UX.

**DAY 3**
- User Workshops
- Usability Testing
- Techniques

**INTERACT**
Day 3 involves your users, who are important stakeholders, interacting with the end product. Sierra-Cedar’s workshops are key to generating great ideas and solving problems.

**DAY 4**
- Support & Maintenance
- Metrics Analysis
- Surveys
- Review Findings

**PLAN**
Day 4 ends the week. Sierra-Cedar consultants and your team review action items that have been identified during workshops and determine next steps. We begin to review findings in preparation for creation of the UX project roadmap.
